GREETINGS

From the Blossom Farm

Again we send greetings to our widening circle of friends and customers. To those of you who have sent us such friendly letters and welcome orders we express our sincere appreciation.

Never was the interest in our plantings greater than this spring. Particularly was this true during the blooming time of the newer, finer narcissi. There are a number of them listed this year and we hope you will try a few so that you too may have the great pleasure of seeing them unfold and develop next spring.

The catalog is a little later than we expected to have it mailed this fall because everybody has been busy getting our greatly increased bulb crop ready to sell and to plant back. We wish you could see the trays and racks of bulbs—such fine big healthy plump ones, the best we have ever had. Production costs have had to be cut because, as you will see, the prices have been sharply reduced. And that means that we must do a larger part of the work ourselves. But we do it with good courage for we know that just as surely as the beautiful blossoms will come just after the dark days of winter so will better times come after these dark days of depression. And may not the spring of better times already be showing?

Sincerely yours,

PAT AND LOLA CONLEY.

(Mr. and Mrs. C. V. Conley).

GUARANTEE

We guarantee our bulbs to be healthy, first size and true to name and will replace any found to be otherwise. Our bulbs are inspected several times a year and all state and federal regulations have been complied with. Narcissus bulbs have been fumigated and carry the federal inspection tag. Our soil produces bulbs of a splendid firm appearance. Of course we cannot guarantee results in your garden because too many things can happen after the bulbs have been planted.

For Those Unfamiliar with Bulb Varieties

Many people prefer to have us pick out the different varieties for them. We are always glad to do that but give us as much information as possible regarding your preferences in color, size, etc., and the use to which they are to be put.

If you do not find some special varieties that you want just let us know. Our connections are such that we can usually supply any variety that might be wanted.

TERMS

On all orders of \$2.00 or more we pay transportation charges to anywhere in the United States. Cash with order unless other arrangements have been made. Six bulbs at the dozen rate. Less than six at the each rate which is one-tenth of the dozen price. Twenty-five or more at the hundred rate. Special quotations on lots of 250 or more.

NARCISSI—DAFFODILS

We were highly gratified at the great attention that our plantings of narcissi attracted this year. Some of the newer sorts were especially admired. Diana Kasner, Twink, Delaware, Thalia, and other fine things were a revelation to people who had been acquainted only with the older sorts. None of the bulbs bring to us the same feeling of pleasure that the narcissi do. While they are not as showy as the tulips and hyacinths their beauty is more satisfying and lasting. Each year we add to our collection some of the outstanding newer sorts. Watching for them to bloom in our own gardens is the most thrilling experience of the whole gardening year. We hope that you, too, may learn of this pleasure.

Prices have been greatly reduced this year. And more than ever are narcissus bulbs a real investment in gardening pleasure. It is an investment that is permanent and grows in value from year to year. The older standard sorts are so inexpensive that they can be used in quantity for naturalizing.

CULTURE

The various types of narcissi-daffodils are not difficult to grow but they do greatly repay a little care and attention. In the first place one should obtain good healthy bulbs. These should be well nourished first size bulbs of either the round size, which makes one bloom the first year, or double nose bulbs, which make two or more blooms. Narcissi are deep rooting and the ground should be deeply prepared, eighteen inches is not too deep. It is well to work some plant food into the ground below the bulbs. Bone meal is always safe to use. We prefer Vigoro as it contains all the elements that the soil may need. Do not use fresh stable manure near the bulbs. Planting should be done early. September is the best month but early October is satisfactory. Cover the tops of the bulbs about four inches and in cold climates mulch well after the ground has frozen. Reset the bulbs every second or third year. The digging should be done about the time the tops die down, the bulbs stored in a cool airy place and reset in the early fall. Never dig any bulbs before or during blooming time as it will injure their growth very severely.

STANDARD NARCISSUS COLLECTION

This is a representative collection of ten standard varieties that have stood the test of many gardening years. It includes that best all-around golden daffodil, **King Alfred**. The other nine varieties are **Golden Spur**, earliest daffodil; **Victoria**, bi-color daffodil; **Sir Watkin**, large Incomparabilis; **Barrii Conspicuus**, yellow medium cup; **Mrs. Langtry**, white; **Single Jonquils**; **Poeticus Ornatus**, early Poet's Narcissus; **Elvira**, hardy bunch flowering; **Golden Phoenix**, double.

10 each of the 10 varieties, Regular \$7.60 for \$6.25

5 each of the 10 varieties, Regular 3.80 for 3.25

—o—

Unless otherwise specified all prices are for first size double nose bulbs. We can supply all varieties, except those for which an "each" price is listed, in first size round bulbs at 20% less than the catalog prices.

—o—

Six bulbs at the dozen rate. Smaller quantities at the each price which is one-tenth of the dozen price.

LARGE TRUMPET DAFFODILS

Division 1. The trumpet or crown as long as or longer than the perianth segments (petals).

CLASS A—ALL YELLOW

	Doz.	100
Aerolite: Large but graceful flower. Early and very long lasting. Deep primrose perianth and medium cup. Each \$1.75.		
Cleopatra: Broad overlapping lemon yellow perianth. Long trumpet of deeper yellow. late	\$2.75	\$20.00
Duchanel: A magnificent show flower of great size. Color a brilliant clear self yellow. Each \$2.00.		
Emperor: Perianth primrose, trumpet yellow. Large flower. One of best for naturalizing	1.25	9.00
Golden Spur: Perianth and trumpet rich golden yellow. The earliest yellow daffodil. Best forcer.	1.00	7.50
King Alfred: One of the finest daffodils and at the same time one of the most vigorous growers. Very tall strong stems that hold erect the large rich golden yellow flowers in the worst weather. Early and a good forcer. First size round bulbs.....	1.50	10.00
Large double nose bulbs.....	2.00	12.00
Olympia: Very large flower with a beautifully frilled trumpet of clear yellow with a lighter yellow perianth.....	2.50	17.50
Tresserve: This huge flower with its rich yellow trumpet deeply frilled is a fine variety for forcing or outdoor planting. It is a good show variety too.....	2.00	15.00
Warwick: One of the finest King Alfred seedlings of a deeper yellow self color. Very early. Each \$2.00.		

CLASS B—ALL WHITE DAFFODILS

Madame de Graaff: Perianth white, trumpet pale primrose fading to white. Rather low growing. One of the latest daffodils.....	1.00	7.50
--	------	------

CLASS C—BI-COLOR DAFFODILS

Beppy: A large bicolor with pure white perianth and very large flaring trumpet. This variety attracted a lot of attention at our farm this season. Each 35c.....	3.50	
Glory of Sassenheim: Broad creamy white perianth and bright canary-yellow trumpet. Very free flowering.....	1.50	10.00
Princeps: Deep yellow trumpet with pale twisting perianth. An old but graceful variety that is one of the most dependable for naturalizing.65	5.00
Spring Glory: Perianth pure white, large golden yellow trumpet. Very large flower of beautiful form.	1.50	10.00
Van Waveren's Giant: One of the largest of all the trumpet daffodils. Creamy perianth, large bright yellow trumpet.....	2.50	
Victoria: Bold erect flower, creamy white perianth with broad yellow trumpet. Fine forcer and excellent for naturalizing.....	1.00	7.50

INCOMPARABILIS NARCISSI

Division 2. Cup or crown not less than one-third but less than equal to the length of the segments. The perianths are white or yellow and the cups yellow, yellow shaded with red or all red. It is in this group and the Barrii that the new red cups are found which have been creating such a sensation in the daffodil world.

	Doz.	100
Bernardino: Broad creamy perianth with fluted cup of soft yellow edged apricot. One of the most beautiful of the medium priced narcissi. Free flowering and a good grower \$2.00		\$15.00
Croesus: Creamy yellow overlapping perianth. Widely expanded cup of clear orange. Excellent form and substance. Each \$1.00.		
Homespun: Perfectly shaped flower of primrose yellow. A very effective flower in the garden.	1.75	8.75
Lucifer: Large handsome white perianth, cup intense glowing orange-red. Fine for mass planting. One of the earliest of the bright cups.	.75	5.00
Mi-Careme: Very tall and outstanding new variety. Perianth citron yellow with deep yellow cup shaded with orange. Comes early and lasts very long. Each \$3.00.		
Sir Watkin: Perianth sulfur, cup yellow tinted orange. A large, tall, graceful flower. Invaluable in the garden or for cutting.	1.00	7.50
Whitewell: Fine large flower of splendid substance. Broad white perianth, cup deep primrose with orange edge.	1.80	
Will Scarlet: Fiery orange-scarlet cup, very broad and nicely frilled. The reflexed perianth is creamy white. Fine for rock gardens or by a pool.	2.00	15.00

BARRII NARCISSI

Division 3. Cup or crown less than one-third the length of the perianth segments. The colors are the same as the incomparabilis division. Many of them have cups of intense red. They are free flowering, hardy, and increase rapidly.

	Doz.	100
Conspicuus: Yellow cup edged scarlet. Broad yellow perianth. Very vigorous and free flowering. Sweet scented. One of our most popular cut flowers.	.60	\$4.00
Diana Kasner: The overlapping perianth of purest white has great substance. Large fluted yellow cup with orange red frill. A magnificent free flowering novelty of rare beauty. Highly recommended. Each \$2.00.		
Early Surprise: A handsome early flower with white perianth. Frilled yellow cup with orange edge. Semi-dwarf growth.	1.40	10.00
Firebrand: Small cup of intense fiery red. Star shaped perianth of creamy white. A bright small flower especially fine for naturalizing in partial shade.	1.25	8.75
Firetail: Very attractive flower with broad overlapping perianth of creamy white. Large orange cup with scarlet orange frill. Each \$1.75.		

Masterpiece: Creamy white star-shaped perianth. Flat nicely frilled orange cup.....	1.50	10.00
Mrs. Barclay: Large flower with flat broad-petaled perianth of pale primrose changing to pure white; deeply frilled flat cup of yellow edged orange-red. Each \$2.00.		
Nanny Nunn: Creamy white perianth of wonderful substance. Glowing cup of orange-scarlet that lasts well. Very choice. Each 30c.....	3.00	
Red Chief: The broad perianth is of purest white, the cup intense orange red. A striking flower.....	1.50	10.00

LEEDSII NARCISSI

Division 4. Perianth white, cup white, cream, or pale citron, sometimes tinged with pink or apricot. In size of cup this division corresponds to the Barrii and Incomparabilis groups.

	Doz.	100
Delaware: One of the most admired flowers in our collection this year. Pure white perianth of firm substance. The large cup is exceptionally deeply crinkled of wonderful substance. The cup opens a golden quince color changing to creamy lemon. Each \$2.00.		
Lord Kitchenier: Broad, flat, pure white perianth of firm substance. Large cup of a delicate pale primrose nicely frilled.....	\$1.60	\$12.00
Mrs. Langtry: White perianth, cup edged lemon-yellow when opening, but soon becomes pure white. Rapid multiplier and free flowering. One of the best for naturalizing.60	4.00
Queen of the North: Very broad white perianth with lemon cup prettily fluted. Superbly lovely flower.	1.20	9.00
Silver Star: Pure white broad petals. Wide open trumpet of primrose changing to creamy white. An exquisite flower of fine form and substance. Each 50c.		
St. Olaf: Wide imbricated perianth; frilled broad cup, cream edged sulfur.....	1.25	8.75
White Lady: Pure white cup and perianth. Large flower on a tall stem. Nice for cutting	1.00	7.50

TAZETTA OR POLYANTHUS NARCISSI

Division 8. Tender bunch flowering narcissi used so extensively for forcing in water and fibre. We do not grow these but obtain them from one of the best sources in the country.

- Chinese Sacred Lily:** Large clusters of white flowers with yellow cups. Each bulb produces several spikes of the fragrant flowers. Very easily grown in bowls of pebbles, or fibre, and water. Each 10c; Doz. \$1.00.
- Paper White Narcissus:** The most popular bulb for forcing in water. Large clusters of pure white, fragrant flowers. Medium size. Doz. 50c; 100 \$3.50. Large size Doz. 75c; 100 \$5.00.
- Soleil d' Or:** "The Yellow Paperwhite." Golden yellow flowers with darker cup. Larger and more vigorous grower than the regular paperwhite. 10c each; Dozen \$1.00.

JONQUILLA AND JONQUIL HYBRIDS

Division 7. All varieties of narcissus jonquilla parentage.

Campernelle Rugulosus (The Single Jonquil): Two to four beautiful golden yellow flowers on a stem. Very delightful fragrance. Foliage erect and rush-like. Beautiful cut flower and good for naturalizing. Doz. 75c; 100 \$5.00.

Golden Sceptre: A beautiful jonquil hybrid with rich golden yellow flowers. Very tall and large. Free flowering and sweetly scented. Each 20c; Doz. \$2.00.

Tullus Hostilius: Two to three golden yellow flowers on a tall stem. Free flowering. Remarkable substance. Lasts exceptionally long in the garden or cut. Each 50c.

TRIANDRUS HYBRIDS

Division 5. All varieties obviously containing *Narcissus triandrus* blood. These are hardy vigorous free-flowering varieties. The graceful flowers have more or less drooping habit.

Agnes Harvey: Pure white star-shaped perianth, white cup sometimes flushed apricot. One to three flowers on a stem. Each 20c; dozen \$2.00.

Thalia: Beautiful large flowers of purest white. Three or four flowers on a stem. Very distinct. Each 75c.

POETAZ NARCISSI

Division 8. Hardy bunch-flowering hybrids of *Poeticus Ornatus* and *Polyanthus Narcissi* such as *Soleil d' Or*. Tall vigorous growers, bearing heads of large well-formed fragrant flowers. Excellent garden flowers and very early forcers.

	Doz.	100
Elvira: Three or four large flowers with white petals and yellow cup, edged orange. The flowers are held erect on a strong tall stem with good foliage making it a very effective variety for garden decoration.....	\$.80	\$5.00
Helios: Creamy yellow perianth with darker yellow cup. Five to seven flowers on a stiff stem.	1.00	7.00
Orange Cup: Yellow perianth; orange-red cup, nicely frilled.....	1.50	10.00

POETICUS NARCISSI

Division 9. The true Poet's *Narcissus*. Pure waxy white perianth, flattened eye or cup of yellow or yellow and red.

	Doz.	100
Glory of Lisse: Large snow-like perianth. Cup yellow edged red. An improved <i>Poeticus Ornatus</i>	\$1.00	\$7.50
Horace: Broad pure white perianth of good substance. Flat cup of deep red. A beautiful cut flower.	1.30	9.00
Ornatus: Perianth pure white, cup edged yellow with margin of scarlet. Very early. Fine for naturalizing.60	4.00
Recurvus (Pheasant's Eye): Pure white perianth, cup deep orange-red. The old fashioned Poet's <i>Narcissus</i> . Fine for naturalizing. Very late.50	3.00

DOUBLE NARCISSI

Division 10. Full double flowers of white, cream, and yellow in a variety of attractive forms.

	Doz.	100
Albo Pleno Odorato: (Double white Poeticus). Snowy-white sweet scented, gardenia-like flowers much prized for cutting. Likes deep cool soil, not too dry. The latest narcissus..	.75	\$5.00
Incomparabilis Plenus: (Golden Phoenix). Yellow and orange rose-double. Vigorous and free blooming. The large blossoms are on long stems.75	5.00
Sulphur Phoenix (Codlins and Cream): Beautiful sulfur-white flower, on a long stem. A large informal type of flower.....	1.00	7.50
The Pearl: Opens soft yellow, fades to creamy white. Perfectly shaped flower on a strong stem. One of the gems of the garden.....	1.30	9.00
Twink: Large semi-full double flowers with alternating petals of soft primrose and clear orange on tall stems. Each \$1.50.		

SPECIAL NARCISSUS COLLECTION

This would be a good collection to acquaint one with the different groups of narcissi. One each of the ten main divisions. It is made up of very fine varieties in the medium price range—varieties that are surpassed only by the new very high priced things. **Tresserve**, yellow daffodil; **Madame de Graaff**, white daffodil; **Spring Glory**, bi-color daffodil; **Bernardino**, *Incomparabilis*; **Red Chief**, *Barrii*; **Lord Kitchener**, giant *Leedsii*; **Golden Sceptre**, *jonquilla* hybrid; **Horace**, *Poeticus*; **Helios**, *Poetaz*; **The Pearl**, double.

10 each of the 10 varieties, Regular \$12.70 for \$10.00

5 each of the 10 varieties, Regular 6.35 for 5.00

MIXED NARCISSI

This is a really splendid mixture that has brought us many compliments. It contains large trumpet **Daffodils**, **Poet's Narcissi** and various kinds of medium cups and doubles. Each order is filled partly from our named varieties so we will be sure that it is a well rounded mixture. Every bulb is sound and healthy.

25 bulbs for \$1.00; 100 bulbs for \$3.50; 1000 bulbs \$30.00.

WHAT'S A JONQUIL?

We are asked that question more than any other. Large trumpet daffodils are not jonquils in spite of the usage in some cut flower centers to the contrary. The true jonquils are all derivatives of *narcissus jonquilla* and have bright green rush-like foliage. The deep yellow flowers come in small clusters on round smooth stems and are very sweet scented. The term daffodil is usually reserved for the long trumpet sorts. The entire group: daffodils, jonquils, poet's narcissi, etc., are all members of the genus *Narcissus*. In our list we have followed the classification of the Royal Horticultural Society.

TULIPS

For spectacular effect few if any flowers equal the Tulips. Their wonderful range of colors embraces almost every hue with the exception of the true blues and that is approached by some of the newer Darwins. Thousands of visitors come to the farm to see the show at tulip time—four acres of beautiful color. You will be welcome and will find it the best time to select the varieties you prefer.

Tulips should be planted in September or October for best results. We find earlier planting gives better results than late, although in this climate tulips can be planted as late as December. While a great part of the size of the blooms is determined by the bulbs planted it is nevertheless essential that the bulbs be provided with a liberal supply of plant food. Bonemeal is always recommended but we prefer a balanced plant food such as Vigoro. Cover the bulbs about four inches and if the winter is severe mulch with straw or dry leaves after the ground has frozen. Lift the bulbs every year when the leaves are turning yellow. Dry carefully. Do not expose the bulbs to the sun or wind. Clear off all old skins, roots, etc., and reset again in the fall.

DARWIN TULIPS

Because of the beauty of their color and form, tall stems and vigorous growth, and the great substance of the flowers, the Darwin Tulips have achieved great popularity. For cut flowers they are superb and at low prices this year one can easily have lots of them for that purpose. The blossoms are large and cup shaped, almost rose-like in the bud, and colors are lovely, shades of pink, brilliant red and rose, lavender and deep purple and maroon. The clear yellows are to be found in the Cottage Tulips.

SHADES OF RED

	Doz.	100
Allard Pierson: (1) A fine long-shaped flower of rich crimson maroon. One of the best forcers..	\$1.00	\$
Bartigon: (2) Fiery crimson shading to scarlet at the margin. Splendid for forcing. (24-in.)....	.50	3.50
City of Haarlem: (3) Large flower of rich cardinal-red. The steel-blue base with white halo gives a striking appearance. One of the finest red Darwins. (31-in.). Special low price.....	.80	5.50
Farncombe Sanders: (2) Vivid rose-scarlet with white base. Large flower of perfect shape. Splendid against evergreens or in the border (28-in.)50	3.50
Feu Brilliant: (2) Bright clear scarlet. Large flower on a good stem. (28-in.)75	
Harry Veitch: (3) Rich blood-red with lighter margin and blue base. Large blooms that last well. Excellent forcer (24-in.)60	4.00
Jacob Maris: (3) Maroon-red with scarlet edge. An extra fine large flower on a strong stem..	.75	5.25
King George V.: (3) Brilliant cherry-rose. Splendid large flower of unusual substance on a strong stem. One of the finest tulips. (28-in.)	.90	6.50

The numbers 1, 2, 3, and 4 indicate relative time of flowering. Those numbered 1 being the earliest.

King Harold: (3) Deep purple-red with white base. Excellent garden variety, standing the weather well. (24-in.)60	4.00
Pride of Haarlem: (1) Bright rosy-carmine with blue base. Sweet scented. Enormous flower on a tall stem. Good for forcing or out doors50	3.50
Prince of the Netherlands: (3) Glowing cerise-scarlet shaded rose with a light blue base. Extra large beautiful flower of a brilliant color. (32-in.)70	
Prof. Rauwenhof: (2) Bright cherry-red, inside glowing scarlet. Large flower on a good stem. 28-in.)60	4.00
Victoire d'Oliviera: (3) Carmine red. One of the best for forcing65	4.50
William Pitt: (2) Dark velvety crimson with purplish shade on outer petals. Excellent forcer and very showy in the garden. (24-in.)65	4.50

SHADES OF PINK AND ROSE

Afterglow: (4) Soft apricot-orange shaded salmon at the edges. A beautiful large flower of unusual coloring. (30-in.)	\$.70	\$5.00
Centenaire: (2) Rich violet-rose with large blue center. Immense flower of perfect form and substance. (32-in.)65	4.50
Cherry Blossom: (2) Soft rose sport of Pride of Haarlem. A beautiful tulip with all the merits of its parent. (30-in.)	1.00	7.00
Clara Butt: (3) Clear pink flushed salmon-rose. A medium sized flower of exquisite form and color. Probably the most popular tulip grown. (23-in.)40	2.50
Edmee (Beauty): (2) Cherry-rose edged soft old rose. A large flower of great beauty70	5.00
Flamingo: (3) Delicate flesh tinted rose with a satin sheen, Medium size flower. (25-in.)50	3.50
Le Notre: (2) Beautiful clear pink with large blue base. Early out of doors and one of the earliest forcers. (27-in.)70	5.00
Madame Krelage: (2) Bright lilac rose margined pale silvery rose. (28-in.)50	3.50
Massachusetts: (3) Vivid pink with pale rose edge. Large flower of splendid form. (28-in.)60	4.50
Princess Elizabeth: (2) Clear rose pink deepening in color with age. Fine for the border or forcing. (28-inch.)65	4.50
Sylvia (3) Brilliant salmon-pink. Very tall, large and strong75	5.25

SHADES OF VIOLET AND PURPLE

Faust: (2) Dark satiny purple-maroon. Enormous oval flower of good form and substance. One of the finest dark varieties	\$.80	\$5.50
Greuze: (3) Dark violet blue. Medium sized flower of good substance. (27-in.)50	3.00
Jubilee: (3) Bright blue-purple. A large oval flower of great beauty. (31-in.)90	6.00
La Tulipe Noire (The Black Tulip): (3) Very dark maroon-black. Fine large flowers of velvety texture. (26-in.)60	4.00

—o—

Ocean voyages may be good for invalids but they do not help bulbs. Home grown bulbs come to you in better condition.

SHADES OF LAVENDER AND LILAC

Blue Aimable: (4) Clear lavender, shaded steel blue, with a white base. A large tulip of distinct shape. (26-in.)	\$.70	\$5.00
Dream: (1) Soft heliotrope or lilac shades. Inside deeper with blue base. (28-in.)50	3.00
Duchess of Hohenburg: (2) Pale lilac shaded with rosy heliotrope, white center. A large flower of perfect form on a stiff stem. (29-in.)	2.00	
Melicette: (3) Pure soft lavender, inside deeper. A charming flower with reflexing petals. Beautiful combined with soft yellow varieties80	5.50
Remembrance: (3) Pale slaty lilac and violet flushed brown at the base. (25-in.)60	4.00
Rev. Ewbank: (2) Heliotrope-lilac with lighter margin. A beautiful medium sized flower60	4.00
William Copeland: (1) The earliest Darwin for forcing, not so good out side. Beautiful lavender when forced; rosy-lilac out doors. (25-in.)60	4.00

WHITE AND BLUSH

White Queen (La Candeur): (2) On opening is tinged pale rose but becomes almost pure white when in full bloom. Black anthers. Medium sized flower. (28-in.)50	3.50
Zwanenburg: (2) The pure white Darwin. A well formed large flower of great beauty that attracted much favorable comment in our plantings this year.	1.00	
Mixed Darwins: A splendid mixture made up from the above named varieties in a complete color range. Not to be confused with cheap run-of-field mixtures usually offered. Per 1000, \$20.00. F. O. B. Eugene.50	3.00

—o—

DARWIN TULIP COLLECTION

Eight fine Darwin Tulips in a wide range of colors. If you are not acquainted with the different varieties this would be a good collection to start with:

Clara Butt, salmon-pink; Dream, lavender; Flamingo, pink; Farncombe Sanders, rose-scarlet; La Tulipe Noire; Pride of Haarlem, rosy-carmine; White Queen; Harry Veitch, Blood-red.

6 bulbs each (48 bulbs). Regular price.....\$2.05 \$1.80

One dozen each (96 bulbs). Regular price 4.10 3.50

—o—

RAINBOW MIXTURE OF TALL STEMMED TULIPS

A mixture made up of Cottage, Darwin and Breeder in almost all colors of the rainbow. Splendid named varieties that have become mixed in handling or were mixed when we bought them. Yellow, red, and pink predominate with some dark shades, lavender and blended colors. The price is low considering the quality of the stock.

First Size Bulbs \$2.50 per 100; 250 for \$5.00. If by mail add 25c per 100 to help pay postage. 1000 for \$20.00 F. O. B. Eugene.

Second Size Bulbs. Same fine mixture in smaller size bulbs. These bulbs will give almost as large a flower and are entirely satisfactory for out-of-door planting. \$2.00 per 100; 1000 bulbs for \$15.00 F. O. B. Eugene.

COTTAGE TULIPS

Some of the varieties of Cottage Tulips are very old having been found in the old cottage gardens of England. It is in this group that some of the clear bright colors are found which are lacking in the Darwin and Breeder groups. Particularly are the pure yellows very fine. Some of the red and orange varieties are intensely vivid, making the most striking sort of bedding material. Other sorts, John Ruskin for example, have delicate combinations of several shades. Many varieties have long pointed flowers with slender stems that make very graceful cut-flowers. However others, like Mrs. Moon and the new hybrid tulip Dido, have stems as tall and stiff as a Darwin tulip. Quite a number have a delicious fragrance. We find the Cottage Tulips very popular with visitors viewing our plantings at blossom time, in fact customers who order at that time usually take more Cottage Tulips than any other type.

SHADES OF ORANGE, SCARLET AND RED

	Doz.	100
Gesneriana Spathulata: (3) Rich crimson-scarlet with a steel blue base. A long pointed flower that opens up like a brilliant poppy. (24-in.).....	\$.60	\$4.00
Grenadier: (2) Large flower of dazzling orange-red. One of the most brilliant of all tulips. Very effective for bedding. (21-in.).....	.65	4.50
La Merveille: (4) Orange-scarlet flushed rose. Beautiful long pointed buds. Delightfully fragrant. (20-in.).....	.50	3.00
Orange King: (3) Large globular flower of orange with rose shadings. Sweet scented. (20-in.)50	3.50

SHADES OF YELLOW

Avis Kennicott: (3) Rich chrome-yellow with black base and anthers. A large long flower on a strong stem. A very attractive variety. 26-in.)80	5.50
Bouton d'Or: (2) Deep golden yellow cup-shaped flower of medium size. Good substance. (20-in.)40	2.50
Ellen Willmott: (4) Soft primrose-yellow. Long pointed flower with reflexing petals. Delicately fragrant. (20-in.).....	65.	4.50
Gesneriana Lutea: (3) Tall and handsome flower of deep yellow. Vigorous grower with fine stem and foliage.....	.60	
Inglescombe Yellow: (4) Glossy canary yellow. Fine cup-shaped flower of excellent lasting qualities. Often called "The Yellow Darwin." (21-in.)40	2.50
Moonlight: (1) Soft primrose yellow. Large oval blossoms with outer petals reflexing at the tip. The best light yellow tulip. (24-in.)....	.70	5.00
Mrs. Moon: (4) Rich golden yellow. One of the finest late tulips. The blooms are large with pointed petals and are carried on tall strong stems. (25-in.).....	.70	5.00
Walter T. Ware: (4) Rich deep golden yellow. Beautifully shaped flower with reflexing petals. Fine lasting qualities.....	.85	

—0—

You get quick returns from Fall planted bulbs. Planted in September and October the blossoms start coming in February—only four or five months.

SHADES OF PINK AND COMBINATIONS OF OTHER COLORS

Beauty of Bath: (3) Large egg-shaped flower of soft rosy lilac shading to canary yellow on the border of the petals. Soft delicate coloring.85	
Dido: (3) Rich orange-rose with shadings of salmon and orange yellow. One of the loveliest tulips ever introduced. The flowers are very large and well formed. (30-in.).....	1.25	
Fairy Queen: (3) Unusual combination of rose-lilac with amber-yellow margin. Large oblong blossom. (20-in.)60	4.00
Inglescombe Pink: (2) Soft rose pink shaded with amber, becoming clear pink. (26-in.).....	.55	3.50
John Ruskin: (3) Salmon-rose with beautiful shadings, edged pale yellow. A beautiful tulip of delicate colorings and fine form. 18-in.)60	4.00
Picotee (Maiden's Blush): (3) Pure white margined rose, the color suffusing the whole flower with age. A lovely flower with recurving petals that is always very popular. (22-in.)50	3.00
The Fawn: (3) Rosy-fawn color changing to soft rose. A graceful tulip of unusual color. (20-in.)50	3.00
MIXED COTTAGE TULIPS: A splendid assortment made up from the above varieties in a wide range of colors. These bulbs would be fine for bedding. Per 1000 \$20.00 F. O. B. Eugene.....	.50	3.00

—o—

COLLECTION OF CHOICE COTTAGE TULIPS

These are excellent sorts that have been very popular in our plantings. The collection consists of Inglescombe Yellow; Gesneriana Spathulata, crimson-scarlet; The Fawn, rosy-fawn; Picotee, white-pink; Orange King, orange-rose, and La Merveille, orange-scarlet:

One dozen each (72 bulbs) value \$3.00.....\$2.50

—o—

LILY-FLOWERED TULIPS

A new class of beautiful and very decorative tulips. The long pointed petals are gracefully recurved giving the flower the shape of a lily.

	Doz.	100
Adonis: (2) Delightful rosy pink—a bright attractive shade. Long pointed flower. (30-in.) \$.75	\$
Alaska: (3) Clear soft yellow with no shading. The long slender flower with reflexing petals has a most charming form.....	1.50	
Retroflexa: (1) Beautiful soft yellow with decidedly recurved petals. An unusual tulip of exquisite form. Early. (16-in.).....	.70	5.00
Sirene: (2) A lovely tulip more reflexed than any other. The color is a beautiful shade of deep pink shaded yellow. A really "lily-flowered" tulip. (28-in.)70	5.00

BREEDER TULIPS

These are the autocrats of the tulip family, unsurpassed in size of bloom, length of stem and richness of colorings. The colors include unusual dark shades of velvety purple, maroon, violet, blue-black, and brown as well as lighter shades of gold, bronze, lilac, etc. Usually two or more colors are beautifully blended in each flower. Their wonderful deep tones and artistic blendings has made them the most sought after of tulips by critical gardeners. Their blossoming period is the same as that of the Darwin and Cottage Tulips.

	Doz.	100
Bacchus: (2) Deep blue-violet with grape-like bloom on the outer petals. Large long blossom of fine lasting quality. (30-in.).....	\$.80	\$5.50
Bronze Queen: (2) Soft buff tinged gold with a suggestion of rose, yellow base. A tall distinct tulip that blends well with some of the darker Breeders60	4.00
Cardinal Manning: (4) Wine red flushed rosy bronze shading to lighter bronze at the edges. Large egg-shaped flower. (34-in.).....	.70	5.00
Don Pedro: (3) Coffee-brown, interior dark reddish mahogany. Beautiful large fragrant flower. (28-in.).....	.80	5.50
Jaune d'Oeuf: (3) Deep lemon-chrome with pale purple shading to outer petals. The flowers are large and well formed. (28-in.)....	.65	4.50
La Singuliere: (4) Opens silvery white flushed pansy purple, the color suffusing with whole flower as it ages. Remarkably stiff stem. (30-in.)90	6.25
Louis XIV: (3) Dark bluish violet flushed bronze with a golden bronze margin. A large flower of indescribable beauty. (32-40-in.).....	.70	5.00
Lucifer: (4) A very large flower of intense colorings. Dark orange with rosy bloom, inside scarlet orange. (28-in.).....	1.00	
Panorama: (3) Reddish mahogany with olive green base. A very large goblet-shaped blossom of splendid color and substance. (27-in.)60	4.00
Prince Albert: (2) Glowing mahogany brown shaded dull bronze, base green. (30-in.).....	.80	5.50
Prince of Orange (Orange Beauty): (4) Brilliant orange with purplish flushes on the outer petals. A well-formed flower of great substance. (26-in.)75	5.25
Queen Alexandria: (2) Medium size flower of good substance. Bright lemon-yellow with purplish blotch at apex of outer petals.....	.70	5.00
Roi de Siam: (4) Dark violet-purple, lighter toward the edges, white base. (28-in.).....	.70	5.00
Saint James: (3) Dark rosy-lilac edged golden bronze. A strikingly beautiful large flower on a strong stem. (30-in.).....	.80	6.00
Velvet King: (3) Dark royal purple with small white base. Fine large cup-shaped flower often with extra number of petals. (31-in.)80	5.50
Yellow Perfection: (2) Light bronze-yellow, edged golden yellow, interior bronze-brown with a yellow base. (30-in.).....	.70	5.00
MIXED BREEDER TULIPS: Selected bulbs of choice named varieties. An unusually good mixture. \$35 per 1000.60	4.00

PARROT TULIPS

When in the bud the flower is supposed to resemble a parrot's head, hence the name. The blossoms are very large and strikingly colored. For cut-flower purposes they are highly decorative. The old varieties have slender stems that can scarcely hold up the heavy blossoms. Fantasy, however, has as straight and stiff a stem as a Darwin Tulip.

Parrot Tulips are usually considered shy bloomers but our fine big bulbs give 100% blossoms as a rule.

Admiral de Constantinople: (2) Brilliant red with orange markings. Doz. 70c; 100 for \$5.00.

Cramoisi Brilliant: (2) Rich crimson with purplish black markings. Doz. 70c; 100 for \$5.00.

Fantasy: (3) A marvelous tulip. An enormous flower of Clara Butt pink with apple-green encrustations. Inside the cup is a glowing velvety rose color. The stem is erect and strong. Highly recommended. 25c Each; \$2.50 Dozen.

Lutea Major: (2) Pure yellow with green and a few red markings. Doz. 70c; 100 for \$5.00.

Perfecta: (2) Golden yellow with deep scarlet blotches. Doz. 70c; 100 for \$5.00.

Mixed Parrots: A good mixture made up of the above sorts and several others. Doz. 60c; 100 for \$4.00.

TULIP SPECIES

The wild tulip species are quite distinct from the garden tulips and are coming into much favor for rock gardens and borders. The ones we list are the more easily grown and consequently moderate in price. They should be planted deep and not be dug often.

	Doz.	100
Clusiana (Candlestick or Lady Tulip): A charming little flower of white with a crimson flame on each petal. (8-12-in.).....	\$.90	\$6.00
Eichleri: Immense crimson-scarlet flowers with a glistening black center bordered gold. Easily grown. (12-in.).....	1.00	7.50
Florentina Odorato: Deliciously scented yellow blossoms shaded bronze on outside. From one to three long blossoms on a slender arching stem. Very charming and unusual.....	1.00	
Kaufmanniana (Water Lily Tulip): Very early. Large flowers of creamy white with carmine-red shadings on outside. Golden center. One of the most trustworthy of species. (5-7-in.)	1.00	

POPULAR TULIP COLLECTION

This collection is made up of splendid sorts in a complete range of colors from the Late Flowering sections. Attractive for the border and splendid cut flowers. At our new low prices this is a real investment in garden pleasure. All first size bulbs and all labeled separately.

Pride of Haarlem (Darwin) rose-carmine; Dream (Darwin) heliotrope; Clara Butt (Darwin) salmon-pink; La Tulipe Noire (Darwin) maroon black; White Queen (Darwin); King Harold (Darwin) dark red; Inglescombe Yellow (Cottage); La Merveille (Cottage) orange-scarlet; Picotee (Cottage) white edged pink; and Bronze Queen (Breeder).

One Dozen each (120 bulbs). Total value \$5.10 for \$4.00.

DOUBLE EARLY TULIPS

The Double Earlies come at about the same time as the Singles but last longer. The large peony-like blossoms are extremely effective for bedding. They should have a good fertile soil in order to get fully double perfect blooms.

	Doz.	100
Electra: Beautiful violet-rose. Fine color. Highly recommended80	6.00
Mr. Van der Hoeft: Full large flower of clear golden yellow70	5.00
Peach Blossom: Bright rose pink flushed white. A large double tulip excellent for both bedding and forcing.....	.70	5.00
Vuurback: Brilliant orange scarlet flowers. Very effective for bedding as the flowers are large and last a long time.....	.70	5.00

COLLECTION OF DOUBLE EARLY TULIPS

One dozen each of the above four beautiful tulips for	\$2.50
25 bulbs of each (100 bulbs) for.....	\$5.00

—o—

SINGLE EARLY TULIPS

This class of tulips contains some of the gayest and most brilliant of all tulips. Coming so early as they do the effect is all the more pronounced. For showy beds and bright spots in the border they are unexcelled. Gen. de Wet is one of the most striking tulips grown with absolutely unique coloring. The price now is greatly reduced. Some varieties like Fred Moore are more gentle in their coloring and make splendid cut flowers. These tulips are used in enormous quantities for forcing. Some notes on forcing are given on page 20.

	Doz.	100
Chrysolora: Clear golden yellow. Large flower, sweet scented. Splendid bedding variety. (11-in.)	\$.70	\$
Coleur Cardinal: Velvety crimson-color with yellow center shaded plum on the outside. Very popular. (10-in.)70	
Flamingo: Rich deep rose with distinct white stripe through center of each petal. (13-in.)..	.60	
Fred. Moore: Bright terra-cotta shaded buff orange. A very handsome tulip, sweet scented. (16-in.)65	4.50
Gen. de Wet: A most beautiful and showy variety. Large flowers of deep orange with scarlet veining and stippling. Yellow base. Sweet scented.75	5.00
Keizerskroon: Large scarlet flower edged bright yellow. A very popular tulip for bedding. (16-in.)75	5.00
Mon Tresor: Deep clear yellow of good form. One of the best for forcing or bedding. (13-in.)	.75	5.00
Prince of Austria: Rich scarlet suffused orange, with yellow base. Large sweet scented flower on tall stem. (15-in.).....	.60	
Proserpine: Rich carmine-rose of silky texture. Good forcer. (11-in.)70	
Vermillion Brilliant: Rich dazzling scarlet. One of the most brilliantly colored tulips in existence. Excellent forcer.....	.60	4.00
Mixed Early Tulips: A good colorful mixture made up largely from the above varieties.....	.50	3.50

CROCUSES

The most joyous of the very early spring flowers are the crocuses. Bright and gay blooms that arrive with the first signs of spring. The finding of the first crocus is always an important event.

	Doz.	100
King of the Whites: Large pure white flowers with orange stigmata. Free flowering	\$.40	\$2.75
Mammoth Yellow: Large flowers of golden yellow. Very free flowering.....	.50	3.50
Pallas: White ground with lilac stripes. From a distance the color effect is a soft lavender-blue.40	2.75
Purpurea Grandiflora: Dark purple. Extra large substantial flowers.50	3.50
Mixed Crocuses. Fine size and quality of bulbs in a good assortment of varieties.....	.30	2.00
One dozen each of the above four fine named crocuses, a \$1.80 value for \$1.50.		

— o —

HYACINTHS

For color effect in bedding the hyacinths stand supreme. Their large heads of long lasting bloom form material for charming pictures in the lovely pastel tints, sharply in contrast with the gay brilliance of the early tulips that blossom at the same time.

Hyacinths are the easiest of the bulbs to force, giving splendid results in glasses of water or in pots of soil or bulb fibre. We have given some notes on forcing bulbs on page 20. Hyacinths need richer soil than the other bulbs. Give them well rotted manure and a balanced plant food. In beds plant at least six inches apart and cover with four inches of soil. It is important that the bulbs have good drainage. Like the other spring flowering bulbs they should be dug when the leaves are nearly dead and replanted in the fall.

Bismarck: Dark lavender-blue. Large compact spike. One of the earliest.

City of Haarlem: Large truss of golden yellow.

Gertrude: Rosy pink, large compact truss.

Johan: Tall spike of large light blue bells.

La Victoire: Deep carmine-rose. Very early. Splendid for forcing.

L' Innocence: Large pure white bells. The best all-around white hyacinth.

Nimrod: Soft rose pink. Early out of doors and the earliest forcer.

Queen of the Blues: Light silvery blue. Very beautiful.

Queen of the Pinks: Bright rosy pink. Later than Gertrude.

Rose Merveille: Similar to Johan but a beautiful soft pink shade.

Mixed Hyacinths: A general mixture or you can specify color desired.

Large size bulbs of any of the above \$1.00 per dozen; \$7.50 per hundred.

Medium size bulbs, suitable for either forcing or bedding; 75c per dozen; \$5.00 per 100.

Ten Each of Five Sorts—you may specify colors if desired, our choice of varieties (50 bulbs); Large size \$3.75; Medium size \$2.75.

BEARDED IRISES

These are the so-called German Irises—one of the most permanent and worthwhile plants in the garden. This collection has been made up by very careful selection from the hundreds of varieties available. The color range is very wide from white through pinks and lavenders to the dark maroons and purples.

The two main requirements for Bearded Iris growing are sunshine and good drainage. They are not exacting as to soil but lime should be added if it is acid. The plants are best not disturbed for three years when they should be divided and reset about August. Weeds and other plants should not be allowed to crowd the iris plants as they need good aeration particularly in damp weather. The prices quoted are for good strong divisions.

"S" refers to the standards or upright petals. "F" to the falls or lower petals.

Ambassadeur: S. bronzy violet, F. dark velvety maroon. Strong grower. Late. One of the most popular irises in the world.....25c; 3 for 50c

Anna Farr: White feathered blue.....15c; 3 for 25c

Aphrodite: Very beautiful tall violet-pink of good form and substance. Fragrant.....50c

Asia: One of the finest irises in cultivation. S. silvery lavender. F. rosy lavender.....40c

Ballerine: Splendid light blue toned iris with deeper falls. Very large fragrant flowers.....25c; 3 for 50c

Bruno: A Dominion seedling of the Ambassadeur coloring. S. bronze, F. deep purple of unusual size and quality.....\$1.00

B. Y. Morrison: Popular bicolor of pale lavender violet and raisin purple.....15c; 2 for 25c

Cardinal: S. lavender overlaid rose. F. rich velvety prune purple. One of the finest Dominion seedlings.....\$1.00

Chalice: Rather low growing deep yellow.....15c; 2 for 25c

Crusader: Striking flower of clear blue. Early, tall and free flowering.....15c; 2 for 25c

Dream: Very lovely crinkled rose-pink self color. Vigorous and free flowering.....15c; 2 for 25c

Gold Imperial: Brilliant chrome yellow throughout except for conspicuous orange beard.....25c; 3 for 50c

Magnifica: Huge flowers on a vigorous plant that come very early. S. light violet blue, F. red violet.....25c

Madame Durand: A wonderful combination of buff gold mixed with mauve and lilac. Large flower on well branched stems.....75c

Mildred Presby: S. white flushed rosy lavender. F. dark velvety pansy violet with narrow edge of white.....25c

Mlle. Schwartz: Lovely pale mauve flowers of large size on tall branching stems. One of the most beautiful light toned irises.....25c

Morning Splendor: Deep rich red-violet. The large well formed flowers of heavy substance give a beautiful red effect in the garden.....25c

Mother of Pearl: Large flowers of iridescent shades and lustrous texture.....15c; 2 for 25c

Mrs. Marion Cran: A brilliant light rose iris on a tall stem. Perfect shape.....50c

Princess Beatrice: One of the finest of all irises. Lustrous lavender of satiny texture and good substance.15c; 2 for 25c

Prospero: Very large blended violet bicolor. Vigorous tall growing variety.20c; 2 for 35c

Pumilla: The very early low growing type. Blue-purple flowers six inches high.....15c; 2 for 25c

- Seminole:** The effect of this flower is redder than almost any other. A fairly low growing vigorous sort splendid for landscape effect.....15c; 2 for 25c
- Shekinah:** Clear light yellow deeper toward center. One of the best light yellow irises.....15c; 2 for 25c
- Souvenir de Mme. Gaudichau:** Deep rich blue of unusual substance lasting a long time in the garden.....25c; 3 for 50c
- Titan:** A large Dominion seedling of fine substance of a deep violet purple color.....50c
- True Charm:** Tall growing white with etched blue edge. One of the most beautiful plicatas.....25c
- Zua:** An early white iris of remarkable crinkled texture. Low growing.20c; 3 for 40c
- Zwannenburg:** A most unusual flower of greenish brown and buff with maroon flakes. Large well formed flower on a short stem.....25c; 3 for 50c

—o—

BULBOUS IRISES

The bulbous Irises are excellent for garden decoration and make splendid cut flowers. They range in color from purest white through lavender tints to clear deep blues. The yellows are outstanding in their clear splendid color. Each year they grow more popular as people become more acquainted with their beauty and ease of culture. The flowers, graceful as orchids, last for a long time when cut. They start to bloom with the last of the tulips and prolong the bulb flower season for several weeks. The Dutch come first and are robust vigorous growers. The Spanish follow immediately and are the more slender in stem and flower. The newer Dutch Irises are much superior to the older sorts in purity of color, size of blossoms and gracefulness of form.

Iris bulbs should be planted in the fall. As they soon start top growth it is desirable not to have the planting too early if the winter weather is severe. In the colder sections of the country they should have a liberal mulch.

—o—

DUTCH IRISES

	Doz.	100
Adrian Bacher: Uniform purple-lilac. Good substance.	\$.75	\$5.00
Albert Cuyp: White with yellow blotch.....	.50	3.00
Anton Mauve: Pearl blue self color.....	.50	3.00
Celestial (Filifolia): Deep sky blue. Similar to Emperor.....	.50	3.00
D. Haring: Very large flower. Good substance. Standards white tinted lilac. Falls pure white	.75	5.00
Frans Hals: Creamy white and pale blue.....	.60	4.00
Hart Nibbrig: Beautiful clear blue. Fine.....	.75	5.00
Hobbema: White shaded light blue. Yellow blotch	.60	4.00
Imperator (Filifolia): Free flowering dark blue. Later than the true Dutch Irises.....	.50	3.00
Poggenbeek: Fine dark blue. Early. One of the finest blue irises.....	.75	5.00
Rembrandt: Deep blue with large orange blotch.	.70	4.50
Theresa van Duyll-Schwartz: Standards pale corn-flower blue. Falls white with narrow orange stripe. Beautiful cut flower.....	1.00	7.00
Th. Wyck: Beautiful uniform cornflower-blue. Narrow orange stripe.....	.80	5.50

WEDGEWOOD (Tingitana Hybrid)

This splendid variety stands apart from the regular Dutch Irises. Early and one of the best for forcing. Very large flowers with blue standards and lighter blue falls with a yellow blotch. Tall strong stems.

New low price. **Per Dozen \$1.50.**

White Excelsior: Large pure white flower of good form and substance.....	\$.70	\$4.50
Yellow Queen. A striking flower of clear golden yellow. Thin wiry stems. Splendid cut flower. The best medium priced yellow.....	.75	4.50
Mixed Dutch Irises: Made up of the above and a good assortment giving a wide color range.....	.50	3.00

SPANISH IRISES

	Doz.	100
Cajanus: Fine canary yellow with orange blotch \$.75	\$5.00
Flora: Light blue. Tall.....	.75	5.00
Queen Wilhelmina: Beautiful flower of pure white with small yellow blotch.....	.75	5.00
Mixed Spanish rises: Made up of the above and other good sorts.....	.50	3.00

ENGLISH IRISES

These are large flowers of orchid-like beauty coming later than the Spanish Irises. They should have more moisture than the other bulbous irises and may be left undisturbed for several years.

Mixed English Irises: Blue, purple, lavender and white in mixture. 75c per dozen.

—o—

HINTS ON FORCING BULBS

The most important thing in forcing bulbs is to see that a good root system is established before an attempt is made to bring them into bloom. This one thing is the cause of most of the failures to get good blooms from the bulbs. The procedure for most of the bulbs—Tulips, Hyacinths, Daffodils, Crocuses—is the same.

Pot up the bulbs in a fairly rich soil—good garden soil to which some leaf mold or peat moss has been added is satisfactory. The addition of one pound of bone meal to the bushel is desirable. Soil should not be used that has been used for bulbs before. Broken pieces of pots should be used to provide drainage. The top of the bulb may come within ½ inch of the top of pot, being just barely covered with soil. If dry, water thoroughly. Cover the pots with enough soil or sand to keep them from freezing or place in a cool dark cellar. Let them remain until well rooted. This will require at least eight to ten weeks for hyacinths and the earliest Single Early Tulips and longer for most of the other things. When well rooted bring into moderate heat but keep out of light, then when the growth has made a good start expose to the full light.

All of the Hyacinths are easily forced. In the Tulips the Single Earlies are earliest, followed by the Double Earlies. Many of the Darwin Tulips do splendidly for March blooming but they should not be kept too warm. Golden Spur is the earliest Daffodil followed by King Alfred.

HARDY LILIES

These beautiful lilies are all of our own raising. They have two large advantages over the imported bulbs: the bulbs are available for planting much earlier in the fall and the home-grown bulbs arrive in a much better condition, for lily bulbs are of a much more perishable nature than other bulbs.

The varieties listed below are all easily grown. For the best results give them a good deep rich soil with shade over their roots—the Madonna lily makes its own shade. They need plenty of moisture with good drainage. A liberal mulch of manure is beneficial.

Auratum Platyphyllum: The most vigorous and healthy type of the wonderful Gold-banded lilies. Enormous white flowers with a golden yellow band through the center of each petal. Large bulbs (9-11 in.) 50c each; \$5.00 per dozen.

Canadense (Meadow Lily): Pretty nodding bell-shaped flowers of bright yellow dotted black. June-July. 2-ft. tall. 25c each; \$2.50 per dozen.

Candidum (Madonna Lily): Pure white fragrant flowers in June and July. One of the most dependable lilies. Do not cover with more than three inches of soil. Must be planted early as it makes leaf growth in the fall. Large bulbs, 20c each; \$2.00 per dozen. Second blooming size, \$1.00 per dozen.

Regale: One of the finest lilies and easily grown. The center of the trumpet shaped flower is yellow shading to white at the edges. The outside of the petals has shadings of wine and brown. Clumps of them in the perennial border are very attractive. Plant about nine inches deep and feed well. Extra large bulbs 35c each; \$3.50 per dozen. Large bulbs 25c each; \$2.50 per dozen; Medium bulbs 15c each; \$1.50 per dozen.

Speciosum Rubrum Magnificum: The most vigorous and deeply colored type of this lily. Large recurved flowers of rich ruby red and white with crimson spots. Plant 10 inches deep. Large bulbs (9-11 in.) 50c each; \$5.00 per dozen. Medium size bulbs (8-9 in.) 35c each; \$3.50 per dozen.

Superbum (American Turk's Cap Lily): A beautiful native variety with bright orange-scarlet flowers spotted purplish brown. Height 3 to 6 feet. 30c each; \$3.00 per dozen.

Testaceum (Nankeen): A rare lily of a most attractive Nankeen yellow or dull apricot tone with orange anthers. Should be planted early in the fall about four inches deep. In growth and habit it resembles *L. Candidum*. Large bulbs \$1.00 each. Medium bulbs (should bloom first year) 50c each; \$5.00 per dozen.

Tenuifolium (Coral Lily): A brilliant little lily for the rock garden. Many medium sized flowers of coral red on slender stems. 1 to 2 ft. May-June. 25c each; \$2.50 per dozen.

Tigrinum: The old-fashioned tiger lily. Easy to grow and well worth while. It likes deep planting with a manure mulch. Many orange-red blossoms on a tall stem. Large bulbs 25c each; \$2.50 per dozen. Medium size bulbs \$1.50 per dozen.

ANEMONES

The Anemones flower with us all through the winter months except during heavy freezing weather. Plant in the autumn covering with only two inches of soil. In cold climates spring planting is probably safer.

St. Brigid: A select Irish strain. The flowers come in a wide range of attractive shades: Red, salmon, pink, lavender, blue, purple, etc. The petals are narrow and very numerous. \$1.00 per dozen.

De Caen: The single poppy type. The range of color is about the same as in the St. Brigid in large poppy-like flowers on good stiff stems. 75c per doz.; \$4.00 per 100.

MUSCARI

Heavenly Blue: This is the finest sort for mass planting, increasing rapidly and flourishing with very little care. The bulbs stay in bloom over a long period. Either full sun or shade. 40c per dozen; \$2.00 per 100.

Plumosus (The Feather Hyacinth): The pyramidal spikes are made up of petals so narrow that they look like feathers, giving the flower a most unusual appearance. Violet-blue. 15c each; \$1.50 per dozen.

SCILLAS

Scillas are among the finest bulbs for naturalizing. They do well in sun or shade and are not bothered by insects or rodents. They should be left undisturbed for several years as they form nice clumps that remain in bloom for a long while.

Campanulata Alba Maxima: Pure white. Resembles Lily of the Valley blossoms. 15-in. high. 40c per doz.; \$2.50 per 100.

Campanulata Blue: The tall flower spikes carry many bells of beautiful clear blue. 50c per doz.; \$3.50 per 100.

Campanulata Rosea: Like the above except that the flowers are a soft rose. 75c per doz.; \$5.00 per 100.

Campanulata, Mixed Varieties: Blue, white and rose in a number of varieties. 40c per doz.; \$2.50 per 100.

Siberica: Most beautiful bright blue flower of the early spring. Each bulb makes several spikes 3 or 4 inches long of clear bright blue flowers. Plant three inches deep. 50c per doz.; \$3.00 per 100.

ERANTHUS (Winter Aconite)

Hyemalis: With us this is usually the first flower of the new season—a cheerful bright flower like a golden buttercup above a collar of deeply divided green leaves. Height about four inches. One of the few bulbs that will thrive under trees. With us they produce a lot of seed which germinates the following spring. Plant about two inches deep. 40c per dozen.

GALANTHUS (Snowdrop)

Nivalis: Small white nodding flowers with green tips. One of the earliest spring flowers. Once established they do not like to be disturbed but if left alone they increase rapidly. They do well in the rock garden or under the edges of shrubs or trees. Plant two inches deep and mulch with leaf soil. 50c per dozen; \$3.00 per 100.

Special Introductory Collection

\$5.00

50 Tulips assorted tall-stemmed	\$1.25
20 Narcissi-daffodils for cut flowers or naturalizing....	1.00
2 Dozen Hyacinths in 4 colors.....	1.50
50 Crocuses mixed	1.00
1 Dozen Muscari Heavenly Blue40
25 Assorted Spanish and Dutch Irises.....	.75
3 King Alfred Daffodils, Round bulbs.....	.45
TOTAL	\$6.35

An attractive offer for the owner of a new garden—an excellent gift idea. This collection would give blossoms from the very early spring through March, April, May and into June. A \$6.35 value for \$5.00.

Bulbs for the Rock Garden

A large number of varieties of bulbs can be used to great advantage in the rock garden and bring it to a wealth of color before the perennial plants come into bloom. The sheltered nooks among the rocks afford protection from the heavy spring storms. The good drainage is greatly appreciated by these little bulbs. They should be planted in clumps and left undisturbed for several years. Then they increase by division and self seeding and form good sized colonies.

The crocuses are splendid for rock gardens especially the large yellow which is so free-flowering. The autumn flowering crocuses produce very unusual effects with their lovely dainty blooms at a time when there is usually little in bloom.

The tulip species can be used among the rocks or at the edge of the meadow beside the rocks. They need full sun. Some of the bright colored early tulips could be used in a large rock garden. The narcissus species are usually recommended but they are oftentimes hard to establish. Some of the lower growing hybrids are much easier to handle. Agnes Harvey, the single Jonquils, Will Scarlet (*Incomparabilis*), Early Surprise (*Barrii*) and the late white daffodil Madame de Graaff could be used in a large rock garden.

Rock Garden Collection

An attractive group of bulbs that would grace most any rock garden and Rockwell's book on Rock Gardens. This would be a welcome gift for some friend with a garden. One dozen each of *Eranthus Hyemalis*, *Galanthus Nivalis*, *Muscari Heavenly Blue*, *Scilla Siberica*, Single Jonquils; one half dozen each of *Narcissus*, *Agnes Harvey*, and *Tulipa Eichleri* and two bulbs of *Lilium Tenuifolium* and Rockwell's book. This is a \$6.15 value, for \$5.00. One half of the collection and Rockwell's book for \$3.00.

ROCK GARDENS, by F. F. Rockwell. Shows just how you can build a rock garden yourself, on a small or large scale and at little expense. Describes the types of rock gardens, tells what soils, climates, and locations are best, how to construct, and what to plant for the effect you want, 31 illustrations, 96 pages. Price \$1.00.
